INTERNATIONAL JOURNAL OF
Antimicrobial
Agents

Contents Volume 4

No. 1

Viral infections of the respiratory tract: prevention and treatment
J.J. Treanor 1

Cefuroxime axetil
P. Dellamonica 23

Cefpodoxime proxetil: a comprehensive review
W.M. Todd 37

Pneumococcal resistance to the third-generation cephalosporins: clinical, laboratory and molecular aspects
K.P. Klugman 63

Development of amikacin resistance in bacterial isolates in Slovakia (1990–1992)
P. Milošovič, T. Mačičková, M. Kettner and J. Kallová 69

Current issues on the prophylaxis and the management of fungal infections in leukemic patients
F. Meunier 73

Calendar 77

Instructions to Authors 79

No. 2 Special Issue: Urinary Tract Infections

Introduction
I.M. Hoepelman 81

The management of urinary infections: what have we learned in the past decade?
G.K.M. Harding and A.R. Ronald 83

The mucosal cytokine response to urinary tract infections
S. Hedges and C. Svanborg 89

Management of uncomplicated urinary tract infections
R.R. Bailey 95

Host defense mechanism in the pathogenesis of UTI and UTI in immunocompromised patients
O.M. Korzeniowski 101

0924-8579/94/$26.00 © 1994 Elsevier Science B.V. All rights reserved

Consequences of asymptomatic bacteriuria in the elderly
L.E. Nicolle 107

Urinary tract infection in patients with diabetes mellitus
I.M. Hoepelman 113

Catheter-associated urinary tract infections: epidemiological, preventive and therapeutic considerations
W.N.M. Hustinx and H.A. Verbrugh 117

Complicated urinary tract infections
R. Gleckman 125

Useful agents in the management of urinary tract infections
S.R. Norrby 129

Management of candiduria
B.J. Guglielmo, M.L. Stoller and R.A. Jacobs 135

No. 3

Editorial
Worldwide resistance against antibiotics
J. Verhoef 141

Resistance to antimicrobial agents of common bacteria isolated from Taiwan
S.-C. Chang, W.-C. Hsieh and K.-T. Luh 143

Activity of eight fluoroquinolones against methicillin-resistant *Staphylococcus aureus* isolated from cutaneous infections
S. Nishijima, S. Namura, H. Akamatsu, Y. Asada, S. Kawabata and M. Fujita 147

The concentration of sparfloxacin in lung tissues after single and multiple oral doses
D. Honeybourne, I. Greaves, D.R. Baldwin, J.M. Andrews, M. Harris and R. Wise 151

Treatment and developmental therapeutics of *Mycobacterium tuberculosis* infections
V.S. Georgiev 157

In vitro and in vivo activities of clarithromycin against the *Mycobacterium avium* complex
H. Saito, H. Tomioka, K. Sato and S. Dekio 175

Macrolide transport in *Escherichia coli* strains having normal and altered OmpC and/or OmpF porins
J.O. Capobianco and R.C. Goldman 183

Antibiotics enhance binding of lipid A-specific murine monoclonal antibody E5 to Gram-negative bacteria
A.S. Bouter, K.P.M. van Kessel, J.J. Cornelissen, J.F.P. Schellekens, Y.Y. van der Hoek, H. Snippe and J. Verhoef 191

Pefloxacin single-dose in the treatment of acute uncomplicated lower urinary tract infections in women: a meta-analysis of seven clinical trials
K.G. Naber, W. Baurecht, M. Fischer and M. Kresken 197

Clinical efficacy and safety of cefetamet pivoxil in toddlers
A. Chibante, E. Peixoto, R. Lejeune, K. Winter and M. Kissling 203

Chemotherapy of varicella zoster virus infections
R. Snoeck, G. Andrei and E. De Clercq 211

Drugs used in the treatment of sleeping sickness (human African trypanosomiasis: HAT)
M. Wéry 227

Calendar 239

Announcement 240

No. 4

Famciclovir, a new oral antiherpes drug: results of the first controlled clinical study demonstrating its efficacy and safety in the treatment of uncomplicated herpes zoster in immunocompetent patients
H. Degreef and Famciclovir Herpes Zoster Clinical Study Group 241

Treatment and developmental therapeutics of *Mycobacterium avium* complex (MAC) infections
V.S. Georgiev 247

Development of an in vitro drug screening system for *Mycobacterium leprae* based on the determination of the intrabacterial sodium to potassium ratio of individual bacterial organisms
M. Wiese, B. Lindner and U. Seydel 271

Activities of liposome-encapsulated azithromycin and rifabutin compared with that of clarithromycin against *Mycobacterium avium–intracellulare* complex in human macrophages
C.O. Onyeji, C.H. Nightingale, D.P. Nicolau and R. Quintiliani 281

The BCG controversy
J. Verhoef 291

Invasive group A streptococcal infection: new concepts in antibiotic treatment
D.L. Stevens, A.E. Bryant and S. Yan 297

Antifungal activity of a new benzothiazole derivative against *Candida* in vitro and in vivo
H. Bujdáková and M. Múčková 303

Leishmaniasis and itraconazole: a controlled clinical trial on cutaneous subtypes
J. Dogra and N. Aneja 309

Use of praziquantel against schistosomiasis: a review of current status
V. Kumar and B. Gryseels 313

The efficacy of praziquantel for the treatment of cestode and metacestode infections
S. Geerts 321

Minocycline: old and new therapeutic uses
C.D. Freeman, C.H. Nightingale and R. Quintiliani 325

Author Index 337

Contents Volume 4 340

Supplement 1

A critical review of the dosage of teicoplanin in Europe and the USA
A.P.R. Wilson, R.N. Grüneberg and H. Neu S1

Supplement 2: Profile of fleroxacin, a new once daily quinolone

Fleroxacin: the newly introduced once-daily quinolone
V.T. Andriole S1

Implications of fleroxacin's pharmacokinetic profile
C.H. Nightingale S7

Tissue pharmacokinetics of fleroxacin in humans as determined by positron emission tomography
R.H. Rubin, E. Livni, J. Babich, N.M. Alpert, Y.-Y. Liu, R. Cleeland, B.L.T. Prosser, E. Thom and A.J. Fischman S15

Comparative evaluation of fleroxacin, ampicillin, trimethoprim-sulfamethoxazole, and gentamicin as treatments of catheter-associated urinary tract infection in a rabbit model
D.W. Morck, K. Lam, S.G. McKay, M.E. Olson, B. Prosser, B.D. Ellis, R. Cleeland and J.W. Costerton S21

Quinolones in the treatment of complicated urinary tract infection
W. Graninger, C. Wenisch and E. Presterl S29

Uncomplicated urinary tract infections — is single-dose therapy effective?
K.G. Naber S39

Use of fluoroquinolones in lower respiratory tract infections (LRTI)
H. Lode, T. Schaberg, G. Höffken and K. Borner S47

Opportunities for i.v. to oral switch in the management of infections: the role of quinolones
D. Lew S53

Conclusion
V.T. Andriole and D. Lew S59
